

You will need:

- Colored pencils, crayons, or markers
- Scissors
- Yarn, ribbon, or string
- Hole punch (if you have one)

Directions:

1. Color your mask with colored pencils, crayons, or markers.
2. Cut along the dotted lines on the mask border and eye area. If needed get your parents help to use the scissors.
3. Cut out the two holes on either side of the bobcat's eye holes in the mask. Have your parents help you use a hole punch or scissors if needed.
4. Cut a length of string, yarn, or ribbon that will fit your head from your left ear around the back of your head to your right ear.
5. Tie each end of the string into both of the holes on either side of the bobcat's eye holes. This will allow you to be able to wear the mask comfortably on your own head.
6. Now you can purr, pounce, and jump around your house like a bobcat!

Post your photos in your masks in our Facebook group:

“Adventures in EdZOOcation” or post a photo on social media and tag

the North Carolina Zoo at #NCZoo #NCZooEd

Thank you for having fun with us and we will see you next time!
